

# 2021 Flavor Summit @ The Global Plant-Forward Culinary Summit: virtual edition

An Invitational Leadership Retreat for Food and Beverage Executives, Corporate and Executive Chefs and other Experts in the Hotel, Resort, Casino, and Cruise Line Sectors, and Upper-Tier Chain/Multi-unit Restaurants

March 30, 2021

## OVERVIEW

For 15 years, the annual Flavor Summit invitational leadership retreat has gathered a select group of corporate chefs and food and beverage executives from hotel, resort, casino, and cruise line sectors as well as upper-tier chain/multi-unit restaurants to explore, discuss, and taste their way through a stimulating, critical set of hospitality and related kitchen and dining management issues. In 2021, we are excited to specifically convene these individuals around the topic of plant-forward inspiration and innovation as part of a special block of Flavor Summit sessions which will kick off the first, extended day of the Global Plant-Forward Culinary Summit virtual edition, on March 30, 2021.

We also invite past Flavor Summit sponsors to join us in fully engaging and supporting the Global Plant-Forward Culinary Summit from March 30 - April 1, 2021 with three days of engaging content and connections.

For details on this program, please visit [www.plantforwardkitchen.org/gpfcs](http://www.plantforwardkitchen.org/gpfcs)

While the targeted Flavor Summit engagements will take place on March 30, sponsors and operators alike will have access to participate in the full three day summit, March 30 - April 1.

## FOR MORE INFORMATION
